CHALLENGE

a- In the community

Corona virus disease:

The Pandemic of Covid-19 propagate since March 2020, Haiti, the poorest country of American known more and more increase of cases. The social distance has been neglected, people didn't wash regularly their hands, people didn't use normally the mask.

b- In Our Program

We taught the kids about the hygiene, the precaution measure to prevent from getting the Virus, they used their masks and washing hands regularly.

Corona Virus update in Haiti

May 2021 → 400 new cases
10 death

March 2020 _____ June 2021 → 17048 cases
369 death

c- Violence in Haiti

Since May 2021, in Haiti that's the war of Gangs!

P-Au-P, the capital of Haiti is squared and blocked by armed gangs without the presence of the government. Violence in Martissant, Martissant is located in the south of the capital, the gangs killed the people, put fire in some house, people are homeless and getting out of the Area.

SPIRITUAL DEVELOPMENT

a- Both programs, all the kids evangelized their community:

With Chapel, Bible study and Bible training, the kids heard the word of God, the kids have been monitoring to continue evangelize their parents, friends and neighbors.

70 percent of the kids attending church, the 3rd grade at Gran Savann School have been accepted to follow Jesus in a morning service (Chapel every Friday) about 30 kids, Pastor Benito have been preached for them and asked our savior God to send his Holy Spirit to live in their heart.

→ We had 3 kids accepted Jesus as their savior and God.

→ No Baptized

b- *Top need for the Spiritual development*

- Bible Distribution to the kids
- Material of training
- A training project of the Future leaders (with a curriculum)

EDUCATION / CHALLENGE IN OUR PROGRAMS

- a- All the kids are attending school in both programs. In J4T2, as you know this program is for the neediest children or neglected we call those kids in Haïti (restavek kids), those children are maltreated by the person they live with, they are coming to school two or three times a week because they stayed home to work for the person, they do all things like: washing dishes, take care of children, carrying water, washing clothes, selling in the public market, sometimes the person can take them out for several reason or the child can leave the house to find his biological parents. Here is an example: a kid who left the house to find her biological mom. Her name is Naika Pierre
- b- The 1st program, J4T002, we distribute school materials to the kids every year like uniform, pens, pencils, notebook... to improve the quality of education given to the kids.

HEALTH

- a- In our program we taught the kids about the different subjects every month, here are some top subjects that we taught in the whole year:
 1. How to protect the environment, the trash for a good health?
 2. Evangelization
 3. Live for God and love others.
 4. How to protect yourself against the virus
 5. Importance of the trees
 6. Importance of the fruits and vegetables
 7. Obedience of the children toward their parents.
- b- All the kids and teachers are washing their hands with soap and running water multiple times a day, especially after using the toilet, before eating, before entering the classroom also after leaving the school we motivated the children and teachers to prevent from getting the virus.
- c- We had two kids at Gran Savann School that got accident this year, by the grace of our Lord, they are well now. We Praise the Lord!!
- d- Some children got fever and headache

Food at School

Gran Savann Christian School

J4T001- In this program we had a total of 316 children that we serve this year, about 17 teachers, 2 helpers (care giver), 3 cooks and one security.

We gave a meal per day, Monday to Friday, a total of: 6760 meals a month, then for the whole school year, we distribute a total of 81120 meals at Gran Savann Christian School

J4T002- In this program we had a total of 40 kids that we serve this year, 5 teachers, 2 cooks and one helper.

We gave a meal 3 days per week: Monday, Wednesday and Friday; a total of 940 meals a month then for the whole school year, we distribute a total of 11280 meals a year.

Both program, we distribute a total of **92400** meals.

TESTIMONIES:

A- Testimony of Calvens Courtois' mom (J4T001)

Lord I praise you!! To you, be the glory!

I am very Grateful to Just4Them, the Sponsor of my child also Pastor Benito and the school that they share love and patience to my Child and a better Christian education that gave to all the kids in the area, Even I am a poor mom and unemployed, Calvens' Father abandoned him, then God send a father (sponsor father) for my child, Lord I Praise you!!! Thank you one time for the money gift that helped to buy a lot of things for Calvens, that he was in great need like shoes, pants, T-shirts also feeding the family. Thank You Just4Them!!!

B- Testimony of a parent who has 4 children at school (J4T2)

I thank you so much Just4Them who help me with the education of my children, I am Guerline Raymond, the poorest one in the area, I have 4 kids at the school and I am unemployed, my husband abandoned me with 5 children, sometimes I wash clothes for someone and give me a little money back, it can be about 30\$us per month that couldn't take care of 7 children and we cannot eat every day. This year with the support of Just4them all my children attend school, eating every day in school and provided school supplies for the children.

Thank you Just4Them, Lord you're great!!!

C- Testimony Figaro Brithney's responsible (J4T2)

I praise The Lord for His power!

I am Selena , the responsible of the child. Since her birth her mother died and father abandoned her, she is very vulnerable, this year I take her home so that I can help her. Brithney, she is 11, and never attend school and enrolled in Just4Them sponsorship, through the support of Just4Them, she is attending school this year. I am so excited for 3 months, Brithney is reading and writing as well,

I thank you Lord, the teachers and Thank you Just4Them.

AGRICULTURAL PROGRAM

Agricultural program with a school garden represents a food and provides for the well-being of our neediest/vulnerable kids that we serve. The mission of the program is to prepare students of all ages for successful careers and a lifetime of informed choices in the global food, and natural resource.

Agriculture can help reduce poverty, raise incomes and improve food security for the poor, who live in rural areas and work mainly in farming.

Agriculture Program begins with an agricultural literacy course providing an opportunity for all middle school students to learn about food, trees, plants, animals and natural resources.

Feeding the kids with our agricultural program

Gardening, practicing watering every Saturday we meet, my goal is that all the kids eat 4 fruits per day and feeding with vegetables, eating a lot of fruits and vegetables that contribute on the well-being of children, this year this program made a great impact to the kids, the community also in our programs, we had studied about eggplants and peanut, we had a parcel of production in our propriety that we have been practiced, we harvested eggplants and peanut that contributed to feed the kids.
