# Laying Foundation

Trench, Rock, Sand, Gravel, Water, Mortar, Rebar

- We invite you to become a global partner with us and come to Guinea-Bissau on a short term mission trip next February.

- We are currently working on the outer wall of the mission's campus. We are also finishing the Bible Institute for pastoral training..

# Building Wall

Block, Sand, Gravel, Water, Mortar

- The wall is essential for security from thieves and the government. With no wall, the gov feels free to take our land for their roads.

- Only 1/3 of the wall has been built. We hope to finish this project by next year and move on to other plans for the campus.

# Visiting Churches

20 Churches in 6 of the 8 States

- Our churches are full of young people and young leaders. From their inception, these churches focus on multiplying themselves .

- Many of our churches are planting other churches. The church in Cacheu has planted 8 others. The one in Sao Paulo, 5 more.
